

Uniflow® Pure Water Pressure Storage Tanks

Uniflow Pressure Storage Tanks are designed for RO applications to store purified water available online for supply to dispenser taps and equipment.

Featuring a reliable diaphragm design, each tank is post-cured before assembly to eliminate the possibility of odours from the tank.

Tanks are available in a range of sizes including 2.2, 3.5, 10 and 20 Gallon sizes and are supplied standard in white colour. Each tank includes a plastic tank stand and the connection is via a stainless steel thread stem.

Benefits

- Compact cupboard installation
- Adjustable output pressure
- Ultra-pure water for autoclaves and washers
- Assembled and factory tested

Applications

- Sterilisers & Autoclaves
- Dental
- Thermal washers
- Boiler feed
- Demineralised water

Please note, the draw-down capacity of each tank is lower than the description reflects. Use the below table as a guide:

Model Number	Vessel	Tank Draw-Down Capacity	Dimensions (H x Dia)
Mono-Systems			
FRO-T-2.2	Steel 2.2 Gallon RO Tank	8	358H x 230D
FRO-T-3.5	Steel 3.2 Gallon RO Tank	10	380H x 276D
FRO-T-10	Steel 10 Gallon RO Tank	32	580H x 390D
FRO-T-20	Steel 20 Gallon RO Tank	70	800H x 390D
