

Aqueous Ozone

The Better Way to Clean and Sanitize

WHAT IS AQUEOUS OZONE?

Aqueous ozone (AO) is a product of water and air in the presence of electrical charge. The electrical charge creates one of the most powerful oxidizers on the planet, revolutionizing the way people clean, deodorize and sanitize spaces. When produced by EnozoPRO, AO is produced in controlled concentrations and contains no harsh chemicals, fragrances or dyes. Toxicology studies have confirmed there is minimal exposure risk using EnozoPro as directed. This means fewer hazards for your workers, clients and facility while protecting your indoor air quality.

WHY AQUEOUS OZONE IS BETTER

- Up to 5,000 refills during the lifecycle of one EnozoPRO bottle
- Reduces skin, breathing, eye hazards and injuries compared to other, synthetic, concentrated cleaners
- Uses only cold tap water: no additional chemicals, perfumes or dyes
- Kills 99.9% of many harmful microbes in just 30 seconds

Save time, save money and improve workplace health using aqueous ozone

AQUEOUS OZONE IS CAPABLE OF KILLING 99.9% OF THE MOST HARMFUL BACTERIA:

- E. coli
- Salmonella
- Listeria
- Pseudomonas aeruginosa
- Bordetella bronchiseptica
- Legionella
- MRSA
- Klebsiella pneumoniae

STAY SUSTAINABLE WITH AQUEOUS OZONE

Using aqueous ozone not only eliminates the need to use harsh chemicals, it also eliminates the need to purchase multiple cleaning products. With EnozoPRO, you produce aqueous ozone on demand with the pull of a trigger. Sustainability doesn't stop there... the use of EnozoPRO also reduces:

- Plastic solid waste and recycling output
- Shipments of concentrated cleaning products as well as storing, moving, unboxing and diluting them
- Deliveries to your facility (thereby decreasing diesel fuel emissions into the environment)
- Skin, eye and respiratory irritation that can be caused by added fragrances or dyes
- Hazards to your workers by allowing them to use a non-synthetic cleaner, deodorizer and sanitizer

The Effects of Aqueous Ozone on Bacteria

Aqueous Ozone: the Better Way to Clean and Sanitize

WHAT IS AQUEOUS OZONE?

Aqueous ozone (AO) is a product of water and air in the presence of electrical charge. The electrical charge revolutionizes the way people clean, deodorize and sanitize spaces. When produced by EnozoPRO, AO is produced in controlled concentrations and contains no fragrances or dyes.

MICROORGANISM	CONTACT TIME	REDUCTION
E. coli	30 Seconds	99.9%
Staph A.	30 Seconds	99.9%
Salmonella	30 Seconds	99.9%
Klebsiella pneumoniae	30 Seconds	99.9%
Enterobacter aerogenes	30 Seconds	99.9%

SB100 Spray Bottle Testing Results Using Modified AOAC 961.02 Protocol
All testing done at Lapuck Laboratories, Canton, Mass., following the directions for use in the SB100 manual.
All tests were done on non-porous stainless steel surfaces.

MICROORGANISM	CONTACT TIME	REDUCTION
E. coli	30 Seconds	99.999%
Staph A.	30 Seconds	99.999%

SB100 Spray Bottle Testing Results Using Modified AOAC 960.09 Protocol.
All tests were done as suspension testing for Food Contact Surface Sanitization using non-halide chemicals.

Save time, save money using aqueous ozone

WHY AQUEOUS OZONE IS BETTER

- Up to 5,000 refills using one bottle of EnozoPRO
- Uses regular tap water; no additional perfumes or dyes
- Inhibits the growth of microbes in just 30 seconds

AQUEOUS OZONE IS CAPABLE OF KILLING 99.9% OF BACTERIA:

- E. coli
- Salmonella
- Klebsiella pneumoniae

EnozoHOME

Aqueous Ozone Spray Bottle

FEATURES

Specifications

- Weight: 1.5lb (0.7 kg)
- Dimensions: (w x d x h) 4" x 4" x 9.5" (10 cm x 10 cm x 24 cm)
- Water Reservoir Capacity: 8 oz (235 ml)
- Water Temperature: 40°F (4°C) – 86°F (30°C)
- Bottle Battery: Lithium Ion 7.4V 1.0 Amp-hr
- Water Quality: Potable water recommended
 - Hardness ≤250 ppm CaCO₃
- Ambient Air: 40°F (4°C) – 104°F (40°C)
- Charger: (100–240 V AC 50/60 Hz)
- Warranty: One year replacement
- Certifications & Standards: CE; UL; ROHS; EPA/FIFRA

On-Demand & Portable

- Aqueous ozone produced on-demand with the pull of a trigger
- Trigger activated micro-pump to draw water through the electrolytic diamond to create aqueous ozone
- No loss in sanitizing power during use
- Lightweight and compact bottle design

Easy to Use

- Built-in sensors and LEDs notify user of battery charge and ozone cell status

BENEFITS

- Kills 99.9% of germs and pathogens including E. coli, Salmonella and others in just 30 seconds
- Cleans, deodorizes and sanitizes
- Replaces harsh chemicals
- Leaves behind no harmful residue
- Effective multi-purpose cleaner
- Ozone is generally recognized as safe (GRAS) by the FDA

USE AO EVERYWHERE

- Use to clean produce and meat to reduce bacteria
- Clean baby items like pacifiers and strollers
- Perfect for cleaning up after pet accidents and safe to use on pet beds and food bowls
